RESEARCH POSTER AWARD

Submission Deadline: **July 15**

The Research Poster Award recognizes one excellent Research Poster presenter each year at the annual conference. The recipient receives one free conference registration for the following year.

Research: This category allows for posters that showcase initiated or completed pediatric health care related nursing research. The research must have IRB approval and does not include evidence-based practice projects. Priority is given to research that corresponds to NAPNAP's Research Agenda. Only completed research is eligible for podium presentation.

For research proposals: The abstract should include: Purpose, background and significance, research question or hypotheses, methods (including design, sample, IRB approval status, data analysis) findings and clinical implications. Projects that have not been reviewed by an IRB will not be accepted.

Note: Abstracts must be no more than 2500 words.
