

Please join MassNAPNAP for its annual student night and chapter meeting on

Tuesday, January 24
Northeastern Alumni Center
716 Columbus Avenue, 6th Floor Boston
617-373-7290
Business meeting and program from 6:30 - 9:30 p.m.

The student portion of the meeting will consist of a panel of recently graduated pediatric nurse practitioners who will discuss their transition from student to practicing clinician, followed by a question and answer session. We have a diverse group of speakers this year, so we should have an interesting, dynamic discussion! While this part of the program is aimed more at students, it has also been of interest to nurse practitioners already in practice, as we learn about the different roles and practices of our fellow PNP's.

A light dinner will be served. There is no fee for students and MassNAPNAP members.

We encourage all students in the area to attend; previous panels have offered very sound advice that has been of use both in searching for and starting a new job. If you teach students, or are a preceptor, please spread the word to all your students and encourage them to come.

Please **RSVP** to Leanne Flynn by Tuesday, January 17, at leanne.flynn@yahoo.com .
