With your membership, you receive access to our members via digital communications, in-person meetings and conference networking depending on the membership level you select. NAPNAP offers three levels of Corporate Circle membership, each with benefits tailored to meet the diverse needs of our industry partners. We offer Corporate Circle opportunities that fit a variety of budgets; yet all NAPNAP Corporate Circle members enjoy member services and increased visibility among NAPNAP’s more than 9,000 clinicians, researchers and faculty members.
What We Do

- Diagnose and treat common childhood illnesses such as allergies, ear and respiratory infections and skin conditions including acne
- Perform pediatric health care maintenance, including well child exams, developmental screenings and in-depth physical assessments, such as vision, hearing and dental
- Prescribe medications, medical equipment and therapies
- Screen and manage mental health illnesses in children and adolescents and prescribe medications and referral to therapy
- Manage acute, chronic and critical pediatric diseases, including asthma, diabetes and cancer
- Order and interpret results of laboratory and diagnostic tests, x-rays and ultrasounds
- Perform school physicals and provide childhood immunizations
- Provide parents advice on common child health concerns, including nutrition, obesity and weight management
- Provide behavioral counseling to children and caregivers on improving school performance, attention deficit/hyperactivity disorder (ADHD) and reducing harmful risk taking behaviors
- Monitor and ensure the quality of health care practice and assist patients and families in negotiating health care delivery systems
- Provide guidance on in-home safety, unintentional injuries, sports injuries, motor vehicle and bike safety
- Work closely with an interprofessional team to provide the highest level of evidence-based care for infants, children, adolescents and young adults with life-threatening illnesses and organ dysfunction or failure
- Manage complex and ongoing intensive therapies in a variety of settings, including inpatient and outpatient hospital settings, emergency departments and home care settings

Who Are We?

PNPs and their fellow pediatric-focused APRNs are advanced practice healthcare providers dedicated to improving children’s health in primary, acute and specialty care settings.

Our loyal members have been providing high quality health care to children and families for more than 40 years in an extensive range of practice settings, such as pediatric offices, hospitals, specialty clinics, school-based health care settings and urgent/convenience care facilities, reaching millions of patients across the country each year. These trusted providers spend significant one-on-one time with patients and families. In fact, 51 percent of NAPNAP’s members report spending up to 20 minutes with each patient during a typical visit.
