- 2011-2013—Delta Sigma Theta Sorority, Physical and Mental Health chair

Educational Background

- 2008—MSN, University of Alabama at Birmingham
- 2003—BSN, Columbus State University

From the Candidate

I have had the honor of being nominated as a candidate for NAPNAP Executive Board member-at-large. It is with great pleasure that I have accepted this nomination. I know that I will be an asset to the board as I have developed many leadership skills and an understanding of the vision and mission of the organization.

I have been a NAPNAP member for over 11 years. I originally joined NAPNAP as a student in 2007 and have remained an active member. I have spent a large amount of my career at NAPNAP conferences and serving as officers in both Atlanta, GA and Houston, TX. In the GA NAPNAP chapter, I served as the vice president/CE chair for two years and was the leader in restructuring our yearly conference to mimic our National conference. With this restructuring, we were able to provide acute care, primary care, and faculty and student sessions better serving our members. In the Houston chapter, I have served as the Program Co-Chair, Interim membership chair and have been re-elected to the Program Co-Chair position. I have worked very closely with the President to implement a yearly fundraiser where we can have a more visible presence in our community. I have also served as a mentor to new board members and assisted with implementing the Mentorship program in the Houston chapter.

I have been a Certified Pediatric Nurse Practitioner specializing in Acute Care for over five years, but have over 15 years of combined nursing and NP experience. Over this time I have served in numerous leadership positions and have been a part of developing many programs and process for the areas I have been employed. I currently practice as an advanced practice provider (APP) in the Physical Medicine and Rehabilitation Department at Texas Children's Hospital in Houston, Texas. My leadership and collaborative skills quickly afforded me the opportunity to serve at the coordinator for the Intrathecal Baclofen (ITB) Pump Program. As the ITB Coordinator, I have faced many challenges but have been able to use my innovative skills to create patient assessment screening tools and improve/develop workflow processes to better serve our patient population.

Also to mention, I have been a member of the largest and fastest growing sorority for over 16 years. Being a member of this sorority, I have learned how to effectively run a chapter and committee, conduct business meetings, implement new programs, budget for new and old programs and establish partnerships with other organizations to better serve our community as a team.

Therefore, it is with confidence that know I would make a positive and impactful mark on the Executive Board of the National Association of Pediatric Nurse Practitioners serving in the member-at-large position. My professionalism, leadership, innovative skills and positive personality are all in alignment with the organization's mission and vision. It my hope that I am elected as member-at-large. I look forward to serving with you all.
