CRC-PC: Primary Care PNP Certification Review Course
Friday, March 17, 4:30–7 p.m.
Saturday, March 18, 8 a.m.–4 p.m.
Sunday, March 19, 7:30 a.m.–2 p.m.

This three-day course is designed to help you prepare for and pass the Pediatric Nursing Certification Board (PNCB) primary care certification exam. The review will cover major theories of growth and development, diagnosis, treatment modalities, interventions of common pediatric illnesses and more. The schedule has been developed to align with the Certified Pediatric Nurse Practitioner-Primary Care (CPNP-PC) Exam. Participants consistently report that practice exam questions are the most important part of the review course, so each lecture has been designed with practice questions to help you analyze your strengths and weaknesses. The course faculty will use an organized approach to improve retention and recall, while integrating test-taking strategies to help you succeed. This course is also a great opportunity for PNP’s seeking to refresh their knowledge and FNP’s taking a deeper dive into key pediatric topics to enhance their daily practices.

REGISTRATION FEES:
Members: $300
Nonmembers: $375

CRC-AC: Acute Care PNP Certification Review Course
Monday, March 13, 4–7 p.m.
Tuesday, March 14, 8 a.m.–4 p.m.
Wednesday, March 15, 8 a.m.–4 p.m.

This three-day course is designed to prepare graduates of acute care PNP programs for the Pediatric Nursing Certification Board (PNCB) acute care certification exam. We will focus on system-based acute care content and the role of the PNP in assessment, diagnosis and management of children with acute, critical and complex pediatric illnesses. Course faculty will integrate practice questions into each content area, using an audience response system, to assist in exam preparation.

REGISTRATION FEES:
Members: $300
Nonmembers: $375

CRC-PMHS: Pediatric Primary Care Mental Health Specialist Certification Review Course
Monday, March 13, 5–7 p.m.
Tuesday, March 14, 8 a.m.–5 p.m.

The Pediatric Primary Care Mental Health Specialist (PMHS) certification demonstrates advanced competency in the assessment, evaluation, diagnosis, and treatment for developmental, behavioral, and mental health (DBMH) conditions commonly seen in primary care. Nurse practitioners certified as PNP, FNP, PMHNP, and CNS are eligible to obtain the PMHS certification to exemplify expertise in early identification and intervention for DBMH conditions in children, including the knowledge and ability to manage DBMH concerns for patients and families until necessary specialized care is available. The course content and schedule has been developed to align with the PMHS exam. The course will focus on child mental health wellness promotion, as well as the assessment, diagnosis, and both non-pharmacologic and pharmacologic management of DBMH conditions commonly seen in pediatric primary care. Faculty will use a case presentation approach to reinforce the concepts and incorporate exam style questions to improve test-taking skills and allow you to analyze personal strengths and weaknesses.

REGISTRATION FEES:
Members: $200
Nonmembers: $275
