

# Kathleen Fabian, DNP, CPNP-AC/PC, NEA-BC

## *e-Chapter*

## *Candidate for Treasurer*

### PERSONAL STATEMENT

I am honored to have received the nomination to serve on NAPNAP's Executive Board as treasurer. I have been a pediatric nurse practitioner for 16 years and an elected leader for over 15 years. My experience includes my role as a founding member of the e-Chapter, where I have had the opportunity to develop the chapter and serve in several board roles, including president and treasurer. These experiences have given me a comprehensive understanding of NAPNAP's mission, governance structure and financial responsibilities, as well as a strong appreciation for the volunteers and staff who sustain and promote our organization's national impact in pediatric health advocacy, education and policy. My professional background is a combination of clinical practice, executive leadership which have afforded me experiences in financial stewardship and oversight, policy development, and strategic thinking and planning.

My vision for NAPNAP is to strengthen our role as the leading voice for pediatric nurse practitioners while cultivating mentorship, inclusivity and professional growth for members at all levels. I believe the best outcomes occur when every voice is heard, data is shared openly, and decisions are made with accountability and foresight. I would like to work with the Executive Board to create financial dashboards that clearly link expenditures to strategic outcomes, enhancing transparency and helping members see how their contributions translate into impact. Additionally, I see opportunities to leverage partnerships to expand NAPNAP's financial sustainability while supporting innovation in programming and education.

Serving on NAPNAP's Executive Board as treasurer would be an honor and enable me to continue to support pediatric nurse practitioners through leadership and financial stewardship. Through the application of innovative ideas NAPNAP and its members can continue to be a driving force in pediatric health care.
